

# SOFTWARE DEVELOPMENT

Domco Technology seeks to develop software solutions for our client's problems.

Domco offers a comprehensive suite of online business solution applications. Customers use this technology to track their employees, manage projects, and be more productive while at the office or on the go, without having to worry about expensive or outdated software. We provide a complete software implementation process, starting with design and development, quality assurance testing, deployment, up to further software upgrades and enhancements. We also provide technical support both remotely and at-home. With years of experience in multiple fields of technology, no problem is unsolvable for our

# WE BELIEVE IN KEEPING PROMISES.

As with any good investment, your software should continue to grow, meeting the ever changing needs of your business.

Our Software Maintenance Policy is our commitment to accommodating the rapidly changing business environment and reflects our continual consideration to the trends and economic realities that Impact your daily operations. Unlike other companies which charge for major product upgrades, we do not. Through our Software Maintenance policy we are committed to enhancing and developing applications that best suit the long term technology needs of our clients.
